Pickles & specialties	Cucumbers, turnips, mixed vegetables, peppers, olive salad and makdous	Retail jars and selected foodservice formats.
Pepper preparations	Red chili pepper in oil; vinegar-based chili preparation quoted separately	Request packing options for the selected recipe.

Packing information

Halva foodservice cartons contain 6 tubs of 3kg each (18kg total). Case counts, materials and pallet loading are stated in the SKU packing list. Tahini and halva come from one Jordanian producer; olives and pickled specialties come from another. Brand and private-label options are specified in the quotation.

From product selection to a written offer.

Minimum orders

Minimums are quoted by product and pack. For private label, approximately one pallet per SKU is an initial planning guide; the final MOQ depends on production, packaging and artwork requirements.

Shipping & lead time

Request FOB Aqaba pricing or CIF to a named destination port. Production lead time, shipping-ready date, freight, payment terms and quotation validity are included in the commercial offer.

Samples

Include the selected products and destination in your enquiry. Sample availability, quantities and shipping arrangements are agreed before dispatch.

Product documentation

Tell us which ingredients, allergens, nutrition, shelf-life, storage, case and pallet documents your technical team needs. Request current manufactured-pack photographs for the selected SKU.

US buyer review

Send your supplier-approval checklist. Producing-site registration information, applicable food-safety certificates and product-specific import documentation are reviewed with the producer and your importing team. This guide is a commercial portfolio overview, not a technical specification or certification statement.

Request your quotation

Send: company, buyer type, product and variety, preferred pack, estimated quantity, destination port, brand preference and purchasing timeframe.
